Bigger, Better Sea Coast Echo In Your Future

Plans are being made to enlarge and improve the Sea Coast Echo under its new management.

This is the first issue published by the new owners following the purchase of the paper. The Bay Publishing Corporation is the new owner. Stan Opatowsky is president and Mel Opatowsky is secretary-treasurer.

Stan Opatowsky will serve as editor. Mel Opatowsky will serve as associate editor and business manager. Mrs. Grace Coble of Greer, S. C., will serve as advertising salesman and Martha Opatowsky will be women's editor.

The mechanical staff and the out-town correspondents will remain the same and when the paper was operated by Mrs. A. F. Favre and Miss Udell Favre.

The paper appears today with a new headline type. Further plans call for eventual installation of an electronic engraving machine. This will permit greater use of local news pictures. It also will enable advertisers to use local pictures of their products at a cost of pennies.

Pending installation of this equipment, which has been ordered, temporary plans have been made for use of nearby engraving facilities. So you'll see more local pictures in the Echo immediately.

The Echo's associated businesses will remain the same. The job printing facilities will be improved, and the Western Union office will remain.

News facilities will be increased steadily. There will be a greater number of feature stories, and you will read of Bay St. Louis people away from home as well as those here.

Presidents and chairmen of all civic organizations in Bay St. Louis, Pass Christian, Waveland, Kiln, Long Beach, Lakeshore and Ocean Springs will be contacted so regular arrangements can be made for coverage of meetings and activities.

All persons are invited to submit news and social notes. If you think it belongs in the paper, telephone "3" in Bay St. Louis. Every call will be welcomed.

Several new departments will be added to the paper as they are developed. Increased coverage will be given to sports, especially in both word and picture.

This is the 62nd year the Sea Coast Echo has been published—it is one of the oldest in the South. It was founded by Charles C. Moreau, who died two weeks before the paper celebrated its 50th anniversary. He was succeeded by Alphonse G. Favre, who died November 22, 1951. Udell Favre edited the paper following Mr. Favre's death.

The Sea Coast Echo's circulation, a bit short of 3,000, is the second largest on the Gulf Coast. Consequently, the paper is one of the best voices of the people and the business establishments of the area. Improved features and facilities could make it the foremost spokesman for the area.

Special Edition To Herald Bridge

The Sea Coast Echo will publish a special souvenir edition that week commemorating the dedication of the new Bay St. Louis Bridge.

This edition will be a little like a wedding. There'll be something old, something new, something borrowed, something blue. The "something old" will be stories of the old bridge, its dedication ceremonies in the 1920's, and the memories of the folks who have witnessed its life span. The "something new" will be pictures of the new bridge, and the story of its unique construction. You'll get the details straight from the superintendent of construction.

The "something borrowed" may be that's where you come in. We'd like to borrow any old photographs that suit the occasion. We'd especially like one of dedication ceremonies of the old bridge. These pictures will be returned in the same condition we get them. The "something blue" is the blues you'll sing as you pay the 25 cents toll. You'll read all the details on this, too. This special issue comes out next week.

Progress

When new owners take over a newspaper, it's customary to start with an editorial outlining the paper's policy. We find today that our policy is graphically illustrated by a little spade digging into the ground and by a big concrete span soaring across the water.

For our policy is PROGRESS. Believing as we do in the bright future, it's significant that we take over this month. This is the month ground is broken for a new school construction. This is the month the long-needed new bridge will be dedicated.

No one will ever talk against progress. But many persons will fall short when the time comes to pay the price for progress. To have real progress, you must have CLEAN AND HONEST GOVERNMENT. No new business will dare enter a community when it fears it may be unjustly treated. No person wants to establish his home in a city where his children will meet an unsavory atmosphere. No public official is entitled to a thing beyond his legal salary, and the gratitude of his fellow citizens for a job well done.

To have real progress, you must have a SOLID SCHOOL SYSTEM. Schools must be adequate physically, and they must be adequately staffed. The future of the community is directly decided by the abilities and skills of its children. Teachers should be carefully selected and adequately paid.

To have real progress, you must have COMMUNITY SPIRIT. The best way to stagnate is to say "Let George do it." George will get tired of doing it sooner or later, and then nothing will get done. These are only leaders. If the entire community does not follow their lead, their greatest efforts are doomed to failure. And this failure hurts every man, woman and child in the community.

This newspaper shall not be a tease or a scold. Its editors will tell everyone how to run his business. But when it sees wrong, it will comment. And when it sees evil, it will scream. Hancock County is just a tiny corner of this universe. But the basic facts of existence are the same here as California, France or Istanbul. Freedom is a precious prize and must be protected. Since we have been proven the best. This means the will of the people must be respected and home rule for private citizens.

It means that every man, woman and child carries with him responsibilities and privileges. If these are carried properly, the progress of which we sing will be inevitable.

Supervisors Tell Of Plans For Airport Hangers Can Be Built By Plane Owners

The Hancock County Board of Supervisors has developed a plan which will permit the construction of hangers at the county airport.

Under the plan, anyone who wishes to build a hanger on airport property will be authorized to do so. He then would rent the hanger to the county.

The county would continue paying rent until the cost of the building has been met. Then the county would own the building. It, in turn, would rent the building to the airplane owner as long as he wanted to use it.

Johnson Shaw, president of the board of Supervisors, said, "We hope this plan will work out so that we can build hangers that are needed. We don't have the funds to build them ourselves. But some people are interested in this plan, and we hope others might come forth to take advantage of this opportunity."

The plan, actually developed when airplane owners approached owners of adjoining property. They wanted to rent space and build hangers on it. These property owners preferred the county board's plan, however.

The landing field now has no hangers. However, they gradually will be needed. Air travel is developing greatly in two ways other than the normal passenger liners.

For one thing, air freight is a growing business. And a vital part of air freight is the shipment of frozen foods—particularly frozen seafoods—to inland areas. Too, private plane travel is increasing, especially among commuters and vacationers.

The key to the hanger plan advanced by the board of supervisors is that the airport can get the hangers as quickly as they can be built, yet the outlay of money is a small amount at a time in monthly rental.

Mr. Shaw advised any persons interested in taking advantage of the plan to contact the board.

Announce Cast For 'The Man'

The Bay St. Louis Little Theater has announced the cast of its new play, "The Man," to be presented Aug. 13-14-15.

The play had a long New York run and since has become a popular Little Theater selection. It was presented by the New Orleans Community Theater last season, and will be the third production of the Bay St. Louis group's season.

Meanwhile, Dr. Harold Keefe has started line rehearsals for "Brighton Corner," to be presented in September.

A truck loaded with asphalt slumped off the road into the ditch on Ulman Ave. Wednesday, tipping on a 30 degree angle.

The vehicle, headed for the new approach where work was being rushed to complete the bridge construction by Aug. 1, veered off the highway at 3 p. m. and took more than five hours to free. The truck is owned by the Gulfport Fuel and Electric Co. Jacks and wood blocks were used to lift the vehicle out of the soft mud.

Rigid Schedule But Irma Jean Survived 'Had A Wonderful Time,' She Says

Tired but still a little starry-eyed, blonde Irma Jean went to Shelby Lake for a luncheon. From there she traveled to Biloxi for the final phase of the contest. It was in Biloxi that the strain of the contest began to take its effect.

Thursday night I could hardly keep my eyes open, Irma Jean said. It was then, however, that she went to a dude ranch party at the Gulf Hills to see a diving exhibition and, unknowing, to be judged more for an auxiliary prize in the contest.

"None of the girls knew that they were being judged here," she said. "It was for general impression made at the club. The prize was a free week-end at Gulf Hills."

"I was surprised," Irma continued, "at the ease with which I got to meet and talk to people. I don't feel like I'll ever be a stranger at any place ever again."

At the final judging Saturday night Hancock Bank president Leo Seal reported Irma Jean to hear the judges' final pronouncement. It was then that she received her gold compact.

The compact has a picture of the State of Mississippi on it with the Miss Hospitality cities indicated. In the upper left hand corner is a confederate flag and in the lower right hand corner is a magnolia, the state flowers.

Detailed plans have been completed for the dedication of the new Bay Bridge next Saturday, Aug. 1.

The big event will be on both radio and television.

The ceremonies will be held on the Bay St. Louis side of the bridge as the climax of a motorcade starting from the Edgewater Gulf Hotel at 2 p. m. Ceremonies start at 3 p. m. and conclude at 6 p. m. when the first car shoots over the four-lane structure.

Dan Russell, Bay St. Louis attorney, will be master of ceremonies for the program prepared by the Bridge Ceremonies Committee, headed by O. W. Delph. Mr. Delph is president of the Bay St. Louis Chamber of Commerce, which is conducting the program in conjunction with the Coast Council of Chambers of Commerce.

A special camera crew from New Orleans will film the ceremonies for television. These films will be shown over WDSU Sunday, Aug. 2 from 9 to 9:30 p. m.

Radio Station WSMB of New Orleans today announced plans to broadcast the ceremonies, John R. O'Malley, vice-president and general manager of the station, said. D. H. Holmes Co. would sponsor the program as a public service.

Harry Arthur, WSMB's program director, will be at the "make" to interview many of the celebrities who will be present. Time of the broadcast, he said, will depend on the time schedule which the Biloxi Chamber of Commerce sets up. Arthur said the station will want to broadcast all the important highlights within the half-hour.

He said the most likely starting time at present seemed to be at 3:30 p. m.

One part of the ceremony is a parade. Water has been bottled and shipped from the Atlantic Ocean, the Pacific Ocean and the Fountain of Youth. These waters will be poured into an urn along with waters from the Gulf of Mexico.

"Miss Hospitality" from the coast cities—including Bay St. Louis' Irma Jean Lee—will pour Highway Commissioner John Smith will cut the ribbon opening the bridge.

The program includes talks by Lt. Gov. Gartin and Mrs. Eugene Mogabgab and the unveiling of the Bay-Waveland Garden Club's historical marker at the foot of the bridge.

Celebrities attending the ceremony have been invited to attend a buffet at the Hotel Reed following the opening.

The Bay St. Louis Lions Club, participating in the dedication, will hand out 10,000 special Mississippi Gulf Coast road maps and windshield stickers. The first car across the bridge at 5 p. m. will receive the first map and sticker.

The 9-million dollar bridge is part of an overall plan to make the entire coast a super-highway. The Mississippi Highway department now plans a four-lane highway from the Alabama state line through Moss Point, Pascagoula, and Ocean Springs to the Bay of Biloxi.

With the four-lane unit at Pass Christian near completion this means that there will be a single four-lane artery from Mobile to the point north of Bay St. Louis where the new bridge approach enters the old Highway 90.

The dedication of this new bridge is a far cry from the September day in 1899 when Jean Baptiste LeMoine Blenville, on a side exploration trip from the new French Colonial capitol on the Bay of Biloxi, saw the Bay of St. Louis for the first time.

The first pile for this new bridge was driven Feb. 2, 1952. The job was completed in a year and a half through the use of special floating equipment directed by two-way radio telephone.

The Bay St. Louis and Pass Christian Chambers of Commerce are official hosts for the dedication. Some 350 guests have been invited.

PASS CHRISTIAN YOUTH HAS BIRTHDAY PARTY

On Saturday last Joe Elbert Allen's eighth birthday was celebrated with a Walt Disney Party. With the theme of the party "It's Great To Be Eight," there were eight boys who took part in the festivity. Meeting at the Allen home at 230 guests listened to the legend of the Birthday Bird and were taken to a movie where they saw a series of Walt Disney cartoons.

Following the show, the boys played some games on the lawn, and then marched into the dining room, where on top of a white feed-cake perched the Birthday Bird surrounded by eight pink candles, representing the eight years passed, and one scarlet candle - the year to grow on.

Miniature baseball gloves with tiny balls in gay colors completed the decorations on the cake, and around the cake plate was an assortment of toy candles and bubble gum. Marching around the table cloth were Walt Disney characters.

Dupaquier - Beliveau Nuptials

In a beautiful and impressive service Sunday, June 21st, in St. Jude's Episcopal Church at Henderson, Minnesota, Miss Anna May Beliveau became the bride of Pierre Maurice Dupaquier of Long Beach, California, son of Mr. and Mrs. John Walter Dupaquier of Bay St. Louis.

The Rev. Glenn Reid officiated at the double ring ceremony which took place at three o'clock in the afternoon.

White baskets filled with gladioli, carnations and stephanotis banked either side of the altar and tall candelabra with lighted cathedral tapers provided a soft candlelight setting for the wedding. Miss Carol Erickson, cousin of the bride, sang "O Perfect Love," and "The Prayer Perfect," before the ceremony and as the couple knelt before the altar "The Lord's Prayer" was sung.

The bride given in marriage by her father, was gown in a creation of white sheer nylon tulle over satin tulle, with a bolero of tulle. Swiss organza embroidered medallions outlined the long frill of pleated tulle forming the skirt. Her headpiece of pleated nylon tulle, wreathed in stephanotis, held layers of illusion and she carried colonial bouquet centered with orchids.

Mrs. Dale Freden attended her sister as matron of honor, wearing The eight boys seated around the table included Tommy and Bruce Phelps, Phillip David, James (Laddie) Shows, Edward (Slick) Gamard, Chris, Michael, Wright, Audley (Bubba) Taylor, and Joe Elbert Allen.

The boys later organized a backyard baseball game.

The wedding reception was held at the home of the bride's parents.

Camp Stanislaus Honors 350 Boys

Camp Stanislaus celebrated the closing of its twenty-fifth camp session by presenting over 350 merals and awards, plus numerous certificate in swimming and riflery to the more than 200 campers present for the closing exercises Saturday in the camp gym.

Five hundred guests and campers crowded into the gym for the award session.

Special guest on the program was Alvin Badaux, president of the National Rifle Association, who presented the riflery awards.

"The NRA offers wonderful training for boys at camps like Camp Stanislaus," President Badaux said "and throughout the more than 25 years of training young riflemen, the Association has never had an accident on the firing line, proving that although a rifle is a dangerous weapon, it can still offer excellent training and many hours of enjoyable competition to boys and girls regardless of enjoyable competition to boys and girls regardless of physical handicaps."

Brother Celsus, S. C., president of St. Stanislaus, presented the certificates and trophies.

Character and best camper awards were well distributed among "repeat" campers and newcomers. Returning from previous camp sessions, and also proving that they could do it again were Tim Micotto of Shreveport, Donald Dufour of New Orleans, Jerry Bragg of New Orleans, Bob-

GULF
Discoveries....

...put new names on the Mississippi map and new money in Mississippi pockets.

Gulf holds credit for discovery of nine Mississippi oil and gas fields; has contributed to the drilling of wildcat wells which have located many more reservoirs in this state...and Gulf's exploratory drills are this minute biting through Mississippi rock in search of new reservoirs of oil and natural gas.

Gulf has invested more than \$100 million in Mississippi, exploring for and developing the oil and gas production which has added so heavily to the expansion of the state's economy since 1939. Gulf's total income from its Mississippi operations is still many millions less than its total expenditures.

Gulf is a proud corporate citizen of Mississippi... proud to be a part of and a contributor to the state's rapid growth in the fields of industry and commerce. With faith in Mississippi's future and with the good will and confidence of its fellow citizens, Gulf continues its efforts to find and produce the natural resources that bring benefits to every Mississippian.

It stands to reason...
Chevrolet trucks
must be the best buy!

Big truck users, small truck users, all truck users buy more Chevrolet trucks than any other make. It stands to reason Chevrolet trucks must offer more of what you want.

When you stop to think about it, the best proof of outstanding value in any product is continued public preference. That's the way it is with Chevrolet trucks. They're the top selling trucks in America today... for the twelfth straight production year.

This is a mighty important fact to consider before you buy your next truck. You'll also want to consider that, while Chevrolet trucks give you more features you want, it's the lowest-priced truck line of all! Come in and talk it over with us.

Important Calls in MISSISSIPPI!

Mighty important—that call! What joy for Mother, Dad or Best Girl after a long absence to hear his voice by telephone!

Your convenient, speedy, dependable telephone is always ready to help—to bring you in touch with loved ones or friends—to run your errands or help whenever you're in need.

And the cost for day-in and day-out telephone service is low! Matter of fact, the telephone takes a smaller share of the family budget today than it did ten years ago. Its cost has remained low in comparison with most things you buy...but its value has increased as more and more people receive telephones. In Mississippi there are over twice as many telephones as there were in 1945, and the list is growing fast.

More and more booths like this are being installed, in new subdivisions, at airports or bus stops, wherever the need justifies them. Just another of Southern Bell's extra services.

SEE US BEFORE YOU TRADE ON A REFRIGERATOR

Let's Talk Sense On Refrigerators

If you're like the average person, the chances are you'll buy several refrigerators during the course of a lifetime. For most Americans a refrigerator is a necessity, and we all like the convenience of a refrigerator in this warm climate.

Nowadays there's so much ballyhoo in the advertising of refrigerators that it confuses most people. Some dealers offer premiums, others offer fabulous so called "trade-in allowances." Most people are too smart to be fooled by any "give-away" deals; but it all boils down to this. When you buy your refrigerator, look for three things. First, a leading brand of refrigerator made by a well-known manufacturer. Secondly, buy from an established local dealer that you know will back up his merchandise in every respect. Third, work out a satisfactory purchase with a reasonable trade-in on your present box and no hidden charges, etc.

We believe that when you buy a Westinghouse you are getting the finest refrigerator in America. When you buy from McDonald's you are dealing with a company that has been in Bay St. Louis half a century. We finance appliances on a low rate and give excellent trade in allowances.

We Invite You To Visit Us Before You Buy

Press Supports

Cities Pleas For Financial Aid

Mississippi's newspapers are lending strong support to the plea of municipalities for some permanent form of State financial aid, according to Mayor John A. Scafield of Bay St. Louis who cited the following editorial from a recent issue of the Jackson Clarion-Ledger entitled, "Justice for Municipalities".

"Civic leaders as well as officials of Mississippi's hard-pressed municipalities welcome renewed assurance by Governor White that he will actively support legislation that will give the municipalities permanent financial aid from the State. Such citizens realize the urgency and the seriousness of the financial problems facing the cities.

"Governor White outlined two proposals to the Mississippi Municipal Association at Biloxi, indicating his willingness to support either, emphasizing the fairness and justification of such aid. Citizens of all municipalities should study those proposals, and they deserve careful and friendly consideration of all legislators.

"The Governor's first proposal is: Give the municipalities a share in the proposed taxes to finance the school equalization program, including the proposed three-cent sales tax.

"His alternative proposal is: Divert to the municipalities one cent of that part of the state gasoline tax now given to the counties, and also give the municipalities one-half of the gasoline tax revenues now going to the State Highway Department to finance the pay-as-you-go highway program.

"Both proposals doubtless will be opposed by some of the short-sighted and more grasping legislators from the so-called rural counties, but fair-minded and fore-sighted law-makers will find it hard to reject or discount the logical arguments made in behalf of both.

"Even those legislators and citizens who have consistently opposed diversion of gasoline tax revenues to any other purpose than the construction and maintenance of roads and highways and this has been the Clarion-Ledger's stand through the years, must recognize the logic of Governor White's contention that the municipalities are entitled to a share of these funds, that the present divisions of the gas tax revenues are grossly unfair.

"There is unshakable logic in the Governor's reminder that more than half of the state's citizens live in municipalities, riding on municipally-built and maintained streets and paying more than half the gasoline tax collected by the State, while the municipalities don't get a cent of these revenues. Yet the construction and maintenance of streets is a major item in every municipality's operating costs.

"These alternate proposals merit the full, careful, fair and friendly consideration of citizens and legislators of all counties.

"There are workers of the state will render public service by outlining these proposals and urging such full consideration of them."

All local teen-agers are invited to attend the function for their own pleasure as well as to help entertain the out-of-town guests, Mrs. Nobles added. She requested that all those interested in decorating the Center contact her at her home by telephoning 62-M.

Also invited to the affair, as to all occasions at the Center, are the parents of the local boys and girls.

Two other events were scheduled by Mrs. Nobles, both in August. On August 1, officers for the incoming year will be elected. At that date all membership payments are due.

On August 3 the Center will hold its birthday dance, commemorating this time the sixth anniversary of the organization. At the dance the incoming officers will be honored.
